PORTFOLIO

MY WEB SITE

www.dayvid.com/bio

At dayvid.com you can play some of my video games, view some of my film and video art, and more.

MOTORCYCLE TYCOON

<http://www.discoblomp.com/games/motorcycletycoon/index.html>

Contracted by AddictingGames.com to develop/produce/write and program a Motorcycle Tycoon game. Wrote a game design doc and budget, and managed production. Creative Director and created all sound FX.

FISHING CHAMPION

<http://www.discoblomp.com/games/fishingchampion/index.html>

Contracted by AddictingGames.com to develop/produce/write and program a game. Wrote game design doc and budget. You can get an idea of my creative producing/director style. Created all sound FX. Used 3d trig for 2d.

BATTLESHIP

<http://discoblomp.com/games/battleship/index.html>

I programmed this and game designed it for Hasbro's HUB site.

BASKET CASE

<http://www.dayvid.com/games/basketcase/index.html>

Contracted by RediStudios to develop a click manage game. It's a Facebook app.

GRAFIX LAB

<http://www.dayvid.com/games/grafix/index.html>

Grafix Lab is a fun urban themed paint tool. I developed Grafix Lab for ZooKazoo. All art was supplied by ZooKazoo, except for the cool drippy paint brush and spray can effect, I made those :)

BUILDING DASHBOARD - IN PRODUCTION

<http://apps.facebook.com/buildingdashboard/>

Working With Lucid Design to bring their energy usage apps to Facebook. Was responsible for developing the flash app and wiring it into Facebook, and did some design. Still in production.

ICE HOPPER

www.dayvid.com/games/ice/index.html

I designed and programmed this game. I created all art and sounds.

ZOOKAZOO

www.zookazoo.com

Built user video submission tool, user content management tool, and video playback for users. Produced, project managed & developed. Also built create tool/paint tool. ZooKazoo is a very cool and fun kids virtual world.

SPARKTOP.ORG

www.sparktop.org

Built online kids community applications, create tools and games. Produced, designed, animated and programmed. Composed original music loops and sound FX. It's a super fun kid community site focusing on learning disabilities, check it out and go play.

WESTFALL DESIGN

www.westfalldesign.com

I built this site for Chris Westfall. All content is loaded in via XML allowing Chris to add or remove content, and reorder content easily. I also did the animation and sound FX. Graphic design and art direction by Chris Westfall.

GSB TIMELINE

www.dayvid.com/gallery/index.html#gbsb_timeline

This is a timeline I designed and built for the Stanford Graduate School of Business. It was built with Flash 4.
